**Subject:** RE: P-18-100 & 102

Hi Dan,

Germ cell mutagenicity was included in error. The corrected list of hazard statements includes:

1. eye irritation
2. skin irritation
3. reproductive toxicity
4. specific organ toxicity
5. sensitization – skin and via inhalation

Best,  
Meg

Hello Dan,

Yes, will do.

Best,  
Meg

Hello Meg,

Can you send me copies of the SAT and Human Health reports for each PMN? These reports are needed to discuss the required hazard statements with our Hazard Specialist who determine the GHS classifications of our products and write the SDSs for these products.

Regards,  
Dan

**Subject:** P-18-100 & 102

Hi Dan,

I left you a voicemail and am following with this email. The following information is for both P-18-100 and P-18-102.

The specific PPE information that should be included in Section 8 of the SDSs includes: NIOSH-certified respirator with an APF of at least 50 if not spray-applied; APF 1,000 if spray-applied

The specific hazard statement information that should be included in Section 2 and Section 11 of the SDSs includes:

1. eye irritation
2. skin irritation
3. germ cell mutagenicity
4. reproductive toxicity
5. specific organ toxicity
6. sensitization – skin and via inhalation

The above list is for both PMNs.

Please give me a call when you have a chance, I have a question about P-18-100.

Many thanks,  
Meg
